The Being A Dad Program is a treatment/prevention program offered by Catholic Family Services of Toronto in conjunction with the Catholic Children's Aid Society.

It is offered to fathers who have been abusive to their partners and have active cases with the children's aid societies.

The goal of the program is to increase the emotional and physical safety of children and their mothers. The focus is to assist fathers to end their abuse and to affect positive changes in their parenting.

The group is structured in such a way as to be a partnership with the group leaders and the man's family service worker.

In practice, this means:

- The family service worker participates in the screening interview with the man. This ensures that the group leader is clear about the family service worker's concerns.
- The man attends an eight-week group program.

Candidates must be fluent in English as no translation services are provided.

Catholic Family Services of Toronto is a Catholic Charities member agency supported by ShareLife.
